

# Grade 6 Science- Gold Team

Chippens Hill Middle School

Mr. Bernier

([craigbernier@bristol12.org](mailto:craigbernier@bristol12.org))

Welcome to 6th Grade Science! I am excited to have the opportunity to teach your child this year. Below I have listed some basic information for how science class will be run. Please review the information carefully and contact me with any questions or concerns.

## What are we studying?

- Term 1- Ecosystems
- Term 2- Weather
- Term 3- Sound

## How will students be graded?

- There are three trimesters in the school year. Students will be graded based on their performance on tests, projects, quizzes, classwork and homework. Although tests and quizzes will have a larger impact on grades, completing all assignments is essential for the highest academic success.
- All grades will be posted in Powerschool. If you have not yet signed up for Powerschool please contact our guidance counselor Mrs. Netz as soon as possible for assistance.
- I expect students to contact me either in person or via email if they have any questions regarding their grade or anything posted in Powerschool to promote individual responsibility.
- Each class will have its own google classroom where assignments, daily work and supplemental resources will be found. However, Powerschool is the place to go to find your child's grades.

## Missing Assignments

- Assignments not turned in on time will be flagged as missing in Powerschool. After one week a "0" will be added to the missing designation. Once the assignment is turned in, the missing designation will be taken down and the 0 replaced with the new score.

## Routines and Procedures for students

**(posted in science google classrooms and already discussed with the entire gold team)**

I encourage you to look at our google classroom with your child to review these procedures and to explore all of the topics within our google classroom platform.

I am looking forward to a great year! Thank you for your time.

Sincerely,

Mr. Bernier
